INTRODUCTION

This bonus lesson level sets students on the underpinnings of project management and agile to ensure full comprehension of the subsequent training topics. Students with many years of project management experience benefit from this lesson as it instills the PMI®-defined ways of describing project management, which is what is tested on the PMP® exam.

LESSON 1: CREATING A HIGH-PERFORMING TEAM

This lesson focuses on the people involved to make projects successful. Critical concepts that you will be tested on the PMP® exam related to this lesson include: building a team, defining ground rules, negotiating project agreements, empowering and training team members and stakeholders, managing in a virtual environment, and building a shared understanding of project goals to drive towards project success.

LESSON 2: STARTING THE PROJECT

This lesson focuses on planning a project. Key concepts that you will be tested on the PMP® exam related to this lesson include: determining appropriate project methodology and practices, planning and managing project scope, budget, and schedule, establishing quality standards, defining project activities, managing project procurement, and establishing project governance and closure practices.

LESSON 3: DOING THE WORK

This lesson focuses on project execution. Important concepts that you will be tested on the PMP® exam related to this lesson include: assessing and managing risk and issues, delivering business value, managing stakeholder communications, creating project artifacts, managing project changes, and planning for project continuity.

LESSON 4: KEEPING THE TEAM ON TRACK

This lesson focuses on leadership and collaboration. Major concepts that you will be tested on the PMP® exam related to this lesson include: learning leadership styles to encourage team performance, supporting issue mitigation to enable the team's best work, navigating conflict management, promoting team collaboration, supporting mentorship and applying emotional intelligence.

Our instructor-led training is available online and delivered with PMI®-developed content to ensure it's up to PMI's highest quality & standards.

CERTIFICATE OF COMPLETION

When you complete our course you will receive a Certificate of Completion acknowledging you have acquired 35 hours of professional development training from a PMI Authorized Training Partner (ATP)®.

LESSON 5: KEEPING THE BUSINESS IN MIND

This lesson focuses on project compliance and outcomes. Essential concepts that you will be tested on the PMP exam related to this lesson include: managing compliance requirements, evaluating and delivering project benefits and value, addressing internal and external business changes, supporting organizational change, and employing continuous process improvement.

Our instructors completed the Authorized Training Partner Train the Trainer – PMP® Exam Prep program and are equipped to deliver PMP® exam prep (for the new exam on 2nd January 2021) and training content to PMI's quality standards.

Lesson 6: Strategy to Pass PMP® Exam

- A detailed phase wise plan to pass the PMP® exam in the first attempt.
- A plan to leverage the Knowlettwoods deliverables.

Success Ratio of Knowlettwoods from 2007 to 2020
